Crumpsall
Manchester
M8 5RB

Dear Sir / Madam,

Following your attendance at the Accident and Emergency department today you have been referred to the Urology Department for further investigation or treatment.

Your referral will be reviewed and you will be sent an appropriate appointment for your condition. This may include you attending for scans / investigations prior to being seen by a Urology doctor to give us some more information and expedite your treatment.

If you have not heard from the Urology Department within a week of your attendance at the Accident and Emergency please ring the Urology Nurse Specialist team on 0161 720 2315 (please note this is often an answer phone, please leave your name and number and one of the nurses will get back to you – please note they work Monday – Friday 9am to 5pm).

Yours sincerely

Annette German
Lead Urology Nurse
Pennine Acute NHS Trust
